

nLighten edge data center

Strasbourg.

SXB1

The first urban center in France classified as a World Heritage Site by UNESCO in 1988, Strasbourg is a prosperous city in eastern France. Much more than the capital of the Grand Est region, it is a center where the dynamism of trade mixes with booming technological development. With a robust economy and a growing interest in technology and innovation, Strasbourg attracts businesses and entrepreneurs. It lies at the crossroads of northern and southern Europe, and transport infrastructure fuels its economy: Strasbourg boasts eight airports accessible in less than 2 hours, a European rail hub, a river port, high-speed internet connections, and an economic basin that can reach up to 35 million people. nLighten's presence in Strasbourg offers exceptional data center services to meet the demands of businesses, thus strengthening the city's position as a telecommunications and technology center.

nLighten Strasbourg.

Rue Jean-Dominique Cassini
67400 Illkirch-Graffenstaden

Location specifics.

The data center is conveniently located in the south of Strasbourg, close to the A35 motorway and just 15 minutes from Strasbourg Airport. The data center has an area of 600 m², 600 kW of power, an office area and ample parking space.

Like the other nLighten facilities, the Strasbourg location enables our customers to benefit from a well-connected, high-availability data center and capable of housing high-density cabinets. The data center comes with a wide range of on-site services and an established ecosystem of partners, all there to optimally support our customers' IT environment.

Highlights.

600 m²
of edge data center space

600 kW
proposed end-state
site capacity

AI-readiness:
Design build of up to 50+ kW
rear-door cooling

Sustainability:
Commitment to a net-zero
carbon footprint

Compliance:
ISO27001 in all locations

Edge data center Strasbourg Features.
